A Vision of the People's

IN his issue of September 22, Mr. H. A. Sturges, Editor of the Republic of Beresford, S. D., prints the following, editorial.

"The Republic has carried for a long time a series of messages in the form of a series of messages in the form of advertisements, ordered and paid for by the Standard Oil Company (Indiana). There is a notion on the part of many that everything that a corporation does is of a selfish nature, and that there never is a vision of the people's good. These messages have carried an entirely different tone, and we believe they are worth reading from week to week. The worth reading from week to week. The data this week is very interesting."

This recognition of the sincere effort which the Standard Oil Company (Indiana)has put forth through these advertisements to inform the public as to its purposes, policies, and ideals, is gratifying.

In the opinion of the seven Directors of this organization, the business of this Company should be, and is, an open book.

The Standard Oil Company (Indiana) is an institution performing an essential service in a highly specialized branch of industry.

This Company is owned by 21,188 individuals, not one of whom owns as much as 10 percent of the capital stock.

The management of this Company centers about seven men, who constitute the Board of Directors. Each one is a specialist in one or more branches of the petroleum industry, and devotes all of his time to the business and affairs of this Company. Not one of the Directors has inherited his job; he has earned it.

Individually, and collectively, the Board of Directors believes that the business in which this Company is engaged is so vital, so impor-tant to the commercial and domestic life of all the people of the eleven states it serves, that they have caused to be published this series of advertisements, that the people may know how the business is being conducted.

Further, the 25,000 men and women who make up this organization are putting forth such enthusiastic, painstaking efforts to do a good job for the Company, and, in turn, for the people, that the Directors are glad to tell the public what is being done.

Through these advertisements they are giving an account of their trusteeship to the people frequently, as they do to the stockholders annually.

This is the purpose of this campaign of advertisements, on which the publisher of the Beresford Republic has seen fit to comment favorably.

For Business Floors

This Cafeteria Floor is Like a Duck's Back

THIS well-appointed, spick-and-span cafeteria of the Chicago Telephone Company has a floor of Armstrong's Linoleum.

This floor sheds water like a duck's back, for it is cemented down, watertight, permanent. It is impervious to grease and dirt, and much easier to clean than any other kind of floor-an important point to consider when floors are decided upon for restaurants, cafeterias, hotels, and public buildings.

Such a floor requires only ordinary care to keep it in good condition, and it will give long wear under the hardest usage. Floors of Armstrong's Linoleum, made chiefly of cork,

are elastic and springy under footcomfortable to walk on and stand on.

If you are planning to build, or to lay new floors, consult your architect, contractor, or any good linoleum merchant about Armstrong's Linoleum. We shall be glad to send him data and specifications for laying.

A good way to install Armstrong's Linoleum as a permanent floor is to cement it down firmly over a layer of deadening felt. A floor so laid will

remain tight, smooth, and absolutely waterproof. Armstrong's Linoleum is guaranteed to give entire satisfaction. You can identify it by the Circle "A" trademark on the burlap back.

WHY PRINTING GOES WRONG

Here is the slowest way to have your copy put in shape for the printer:

> Have your layout and engravings made in one shop, your type set in another shop, your plates made at a third. Ask any good production manager what he thinks of that!

And here is the quick and most satisfactory way:

Have your engraving, typesetting and electrotyping all done in the same shop, on the same floor, under one direction, in the only plant of its kind in the world.

That is the Central way—a service for quality, accuracy, economy and speed, impossible to duplicate in any other establishment in America.

The most delicate mechanism in the world—unprotected?

TOU pay \$100 or more for a set of tires. Naturally you pick them with care you want to get your money's worth and protect your car.

But when it comes to getting similar protection for yourself-rubber shock-absorbers to cushion the jolts of your 8000 daily steps how intelligently do you choose?

Modern civilization has made rubber heels far more necessary than rubber tires. But the mere fact that it's a "rubber" heel isn't enough. Unless your heels are true elastic cushions-tough, live, springy, absorbing every shock-you're not getting the protection you need.

The most famous heels in the world-O'Sullivan's -are yours for the asking. Made of the famous O'Sullivan "blend" that can't be copied. Made tough enough for months of wear-yet so live and springy that every step seems to fall on a cushion of air.

Say "O'Sullivan's!" to your repairman to-day.

Tender Gums -A Warning

Beware of gum tenderness that warns of Pyorrhea. Four out of five people over forty have Pyorrheamany under forty, also. Loosening teeth indicate Pyorrhea. Bleeding gums, too.

Remember—these inflamed, bleeding gums act as so many doorways for disease germs to enter the systeminfecting the joints or tonsils—or causing other ailments.

Forhan's positively prevents Pyorrhea, if used in time and used consistently. As it hardens the gums the teeth become firmer.

Brush your teeth with Forhan's. It cleans the teeth scientifically—keeps them white and clean.

Brush Your Teeth With Forhan's-How to Use It Use it twice daily, year is and year out. Wet your brush in cold rater, place a half-inch of the refreshing, healing paste on it, then rush your teeth up and down. Use a rolling motion to clean the revices. Brush the grinding and back surfaces of the teeth. Massage our gums with your Forhan-coated brush—gently at first until the ums harden.

This is a Studebaker

We have been asked the question how we account for the tide of Studebaker popularity which has swept the country.

Among others, two fundamental causes explain it:

1. The outstanding cause is the value of Studebaker Cars in quality, style, performance, durability, and price, demonstrated by the complete satisfaction and enthusiasm of nearly one-half million owners who know values.

2. The universal respect for and confidence in the integrity of the name STUDEBAKER which for seventy years has been the symbol of quality and fair dealing.

Crowning proof of the dependability of Studebaker cars is reflected in our diminishing business in service parts.

> With approximately 116,000 more Studebaker cars in operation on September 1st, 1921, our parts business the first eight months of this year was 3% less than in the same period two years ago.

> While our car manufacturing plants operated this year 41% ahead of last year, our service parts manufacturing plant has operated at from one-half to two-thirds of last year.

Studebaker Cars are standing up in service and staying out of repair shops, to a degree unexcelled, we believe, by any cars of whatever price.

Can You Dolt and Eat?

Can you keep house on \$25 a week? Thousands of young couples are postponing marriage because they are afraid to try it. But it can be done!

A Home Journal investigator tells how many couples are stretching \$25 a week over rent, clothing, heat, gas, light, ice, food, fun and savings.

"How to Get Married on \$25 a Week and Eat" is one of forty-seven (47) features, including an exclusive article telling how Mrs. Wilson saved the President's life, and a complete novelette, "My Aunt Clarinda's Orphan," by Corra Harris, in the 174-page October issue of

Nehf really deserves something better than the fate of a loser. His pitching never was easy for the Yanks at any stage. But good pitching couldn't prevent Babe's unexpected but. Nehf started by employing speed and plenty of ft. Later he adopted slow ball tactics and the Yanks, who swing with all they have, looked foolish. The slow ball came too late, however.

On the first batted ball McNally fum-

Bullets Come from Auto in Front of Home.

Believed to be the victim of a former confederate who resented his determination to "go straight," Charles Reiser, a safeblower, was shot and probably fatally wounded last night in front of his home at 1704 Ohio street. Reiser is said to be worth \$100,000. He owns a flat building adjoining the one

"Didn't Have a Chance," He Says. "He took an automatic pistol from a ureau drawer," Mrs. Reiser said, "and then went outside. I walked to the window and heard him say something to the man in the automobile Two shots were fired in reply." "They didn't give me a chance," Reiser said to his wife. "They even

had the bullets steeped in garlic."

The police believe Mrs. Reiser knows the identity of her husband's assailant. Another Possible Motive.

In the death of John L. Mahoney, alleged safe robber and bootlegger, several months ago may lie the secret of the Reizer shooting. Mahoney was found slain on April 29 in an alley back of 1814 South Peoria street. Some time before his death he is said to have given information which led to the arrest of Reiser, alleged cracks man. Mahoney was a brother-in-law of Tony Volpe, secretary to "Diamond Joe" Esposito, Republican committee-man in the Nineteenth ward.

STERLING MAKES BIG GAIN; CARRIES Acme Coal Burns Brod OTHER RATES UP

YESTERDAY'S AVERAGES

The New York Times.

New York, Oct. 10.—[Special.]—Interest in today's financial situation was focused 'primarily on the foreign exchanges, and more specifically upon sterling, which touched \$3.87 and reacted to \$3.854. At the latter price, however, there was a gain of 4½ cents, this coming as a sequel to a big rise last week. As compared with Monday a week ago, today's closing figures represented a gain of approximately 13 cents. At the quotation of \$3.87 terling was at the highest point since June 3, when it sold at \$3.89, and only slightly more than 13 cents under the high for the year.

The strength in sterling was transmitted, in part at least, to other exchanges, several of which touched a new high for the year, including Peking and Manila rates.

CENTRAL TRUST COMPANY OF ILLINOIS, CHICAGO, TRUSTEE

We summarize as follows from a letter of Mr. Frank Phillips, President of the Company:

BUSINESS: The Company was incorporated in 1917 and is engaged in the production of oil and gas and gasoline from casinghead gas plants. It is generally recognized as one of the most substantial and efficiently organized of the oil producing recognized as one of the most substantial and efficiently organized of the oil producing companies in the United States, confining its operations to the most important producing districts, with holdings well distributed through such districts. Its net production has increased from 234,308 barrels in 1918 to a present production at the rate of 3,600,000 barrels per annum net, after all deductions. The Company's holdings comprise 130,000 acres, located in seventy counties in Oklahoma, Kansas, Texas, Kentucky, Louisiana and Arkansas. Its present production is obtained from 894 oil and gas wells on 130 different properties, located on leases aggregating 20,000 acres in five states, the present producing acreage alone being capable of much greater development. The Company owns three modern casinghead gasoline plants, one of which is recognized as among the largest in the industry, producing at the rate of 5,000,000 gallons of raw gasoline annually. The Company's properties represent an actual cash investment of \$24,288,090.

EARNINGS: Net earnings after all taxes and maintenance, for years ended June 30th and for the first six months of 1921 have been as follows:

1921 Jan. 1—June 30, 1921 \$5,325,755 \$1,791,095 \$1,050,880 \$3,715,878 \$408,005

NOTE: While these figures do not include amounts for depletion and depreciation, the increase in the value of operaties resulting from development of hitherto unproven acreage and the extension of proven acreage through development erations mere than offset these. In its balance sheet, however, the Company has set up a reserve for depreciation and pletion of \$6,187,841.66.

Maximum annual interest and sinking fund charges on the present issue of debentures is \$612,500.

BALANCE SHEET: Net tangible assets as shown by the books of the Company are in excess of \$31,750,000, of which over \$10,000,000 represents earnings re-invested in the property and over \$12,000,000 the proceeds of stock sold to the public for cash. The consolidated balance sheet as of June 30, 1921, after giving effect to the sale of the present debenture issue shows total assets of \$43,743,754. After deducting all liabilities, including the present bond issue and \$6,187,841 for depletion and depreciation reserve, a surplus of \$31,795,712 applicable to the Company's capital stock is shown equivalent to \$48.00 per share of stock outstanding.

STOCK OPTION WARRANTS: Each \$1,000 of bonds carries a detachable warrant entitling the holder for ten years to purchase from the Company at \$331/2 per share the following amounts of stock. For the first two years, ten shares, and thereafter one share less during each succeeding year.

Present market for the stock is about \$26.50 per share. In 1920 it sold as high as 441/2 on the New York Stock Exchange and as late as May of this year sold at 311/2.

Legal proceedings under supervision of Pam & Hurd and McAdoo, Cotton & Franklin, Attorneys, Audit by Crockett, Couchman & Crawford, Certified Public Accountants. First Lien Individual Farm Mortgages For October Investment

Farm land is an indestructible security. Millions of dollars of our assets are invested in first lien farm mortgages, secured by productive farm lands in the Corn Belt.

The states included in this area produce approximately two-fifths of the entire food value production of the United States. In 1919 these states produced over ten billion dollars in food.

We offer and recommend investments secured by corn belt farm lands in denominations of \$100 and up to net 6% to 63/4% interest, payable semiannually. We attend to all details of collection and remittance without charge.

DO YOU KNOW ABOUT CREDIT INSURANCE?

UNLESS you conduct your bus-iness on a cash-ir-advance basis, you need credit insurance.

It is even more vital to you than fire insur-ance. Bad accounts are more frequent than fires—and an uncollectable account is as much a loss as if the goods were ufterly destroyed. No amount of precaution on your part can absolutely prevent credit losses, but the "Lon-don" can and does pay them—and "loss" in this connection, is construed to mean any

James A. Patten, who has been at his son's ranch near Butte. Mont., for three weeks was back yesterday. From what he saw of desolation among farmers there owing to loss of their grain crops by hallstorms he is pessimistic. Agricultural conditions are too bad, he believes, for a rapid revival of prosperity. A ranchman on a ranch adjoining the Pattens who had given a chattel mortgage was such a farmer who had given a chattel mortgage was stripped of his horses, seed grain, and everything, even to his chickens. Fiber Reed Furniture

Special Groups Including Floor Samples Greatly Reduced in Price

This selling brings one of the most advantageous opportunities noted in some time. For the type of furniture included is among the best of its kind, and pricings are remarkably low. It is the sort of furniture, too, for which one always finds place all year around in the living-room and sun-parlor.

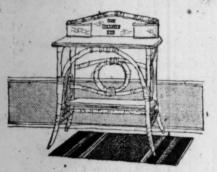

Fiber Reed Chairs Specially Priced, \$10.95

These chairs are finished in ivory or in putty and black. They are large, roomy, very comfortable chairs. One may have a rocker to match. \$10.95 each.

Fiber Reed High-Back Chairs, Upholstered, at \$19.75

These may be had in the ivory or putty and black finish, with the cretonnes used as upholstery in different colors to harmonize with the finish. There are rockers to match. Either chair or rocker, \$19.75.

Fiber Reed Desks Specially Priced at \$18.50

These desks are to be had in the putty and black finish only. The tops measure' 17 x 20 inches. The desks have a height of 30 inches. Specially priced at \$18.50 each.

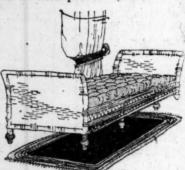

Fiber Reed Rockers, Upholstered, Special at \$16.50

The back is covered in cretonne. and there is a thick, heavy cretonne covered cushion over an upholstered spring seat. Either chairs or rockers at \$16.50 each.

Fiber Reed Fernery, Specially Priced at \$12.50

Also in the ivory or the putty and black, finished in a very graceful style. This fernery has a removable metal tray, is 11 x 28 inches, and has a height of 32 inches. Excellent value at this price. \$12.50.

Fiber Reed Day-Beds Specially Priced at \$45

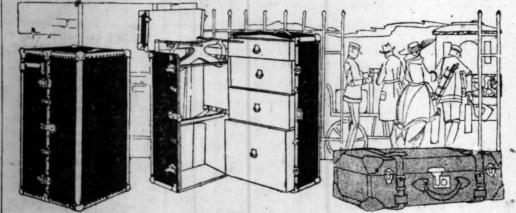

These day-beds have loose cushions covered in cretonne, fitted over spring seats. They are 80 inches long and 28 inches wide. Specially priced at \$45 each.

Chauffeurs' Outfit

Three-Piece Suit and Overcoat of Whipcord (or Ulster) And Cap to Match

Certainly this is unusual value for outfits of this kind. The suit and belted overcoat are of all worsted whipcord of a heavy, serviceable quality-all are lined throughout.

The ulster is of all-wool melton and woollined. It has large collar.

The outfit is featured considerably below the usual price. Complete, \$95.

Or the different garments may be purchased separately at the following prices:

The three-piece suit, \$50. The overcoat or ulster, \$50. The cap to match, \$3.50.
